

List of emergency grant funders for churches

• COVID-19 RESPONSE FUNDS

This list has been assembled by researching and cross-checking multiple lists of COVID-19 emergency funds that are currently available. All funders on this list are open to churches.

The general criteria of many COVID-19 emergency funds are to support projects and programmes helping local communities that will have been hard-hit by the crisis. These funds will be especially relevant if your church is running projects supporting isolated and vulnerable people, foodbanks, or providing other kinds of support for your community.

Each entry on the list contains key information such as the funder's interests, contact information and details of how to apply. The funder's website is included; we recommend that you visit their website before making an application. Most funders have a list of Frequently Asked Questions (FAQs) to help you to complete their application forms online.

This list is organised by region to help you find relevant funds for your church.

Local community foundations

The **National Emergencies Trust (NET)** is also distributing funds across the UK via 46 accredited community foundations.

There is a **community foundation** for every region of the UK, which supports local organisations and groups, often including churches.

- Each of the 46 community foundations will have differing application criteria and processes, so contact your local community foundation to enquire about grants available to your church. The list of community foundations can be found at www.ukcommunityfoundations.org/
